DETAILED ACTION

Drawings

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawing filed 1/9/2004 contains informal matters. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1-14 are allowed.
3. The following is an examiner's statement of reasons for allowance: None of the prior art of record discloses or teaches a fixing member for fixing toner image on a recording medium comprising a releasing layer; a first layer of elastic, adiabatic and hydrophobic material formed below the releasing layer; a layer of electrically conducting material formed below the first layer; a second layer of adiabatic and hydrophobic material formed below the layer of electrically conducting material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2852

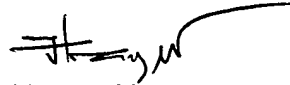

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nagahira, Suzuki, and Hirai disclose a multi-layered fixing member for fixing toner image on a recording material.
